

**Dr Long Ngo**  
**Chairman**

Founder and currently Chairman of Prime Construction, Dr. Long Ngo gained his doctorate in civil engineering in 1978 from Auckland University, New Zealand with BE Hons PhD, MIPENZ, Registered Engineer.

Dr. Ngo was born in Hanoi, Vietnam. He went to New Zealand in 1970 to study under a New Zealand Government Colombo Plan Scholarship. He graduated with a Bachelor of Civil Engineering (First Class Honours) in 1974 and a Doctor of Philosophy in Engineering in 1978. He then worked in New Zealand for 15 years, 7 as a Director of Tse Group Ltd., Architects & Engineers, before returning to Vietnam in 1993 to set up the first New Zealand professional consulting office under the banner of Duffill Watts & Tse Ltd.

Dr. Ngo resigned from Duffill Watts & Tse in December 1996 in order to fully concentrate on managing the construction activities of Prime. His career in civil engineering and construction in New Zealand enabled him to pioneer international construction techniques and standards in Vietnam where he has worked since the early 1990s.

Dr. Long Ngo has successfully combined the best of New Zealand and Vietnamese values in creating the culture of Prime. He has instilled in Prime's employees the importance of honesty and integrity and a solution based approach to help clients find a way to achieve what they want.
